C41系列空气锤

C41 SERIES PNEUMATIC FORGING HAMMER

企业简介

Introduction

安阳锻压（集团）机械工业有限公司（原安阳锻压设备厂），是一家具有近60年生产锻压设备历史和国内生产锻锤行业规模最大的企业。集团公司被认定为国家级高新技术企业，是国内空气锤、数控全液压模锻锤、电液锤等产品国家标准起草制定厂家，是河南省高技术高成长型企业之一，省重点装备企业，是国家锻造协会常务理事和河南省锻造协会副会长单位。

公司主要产品有空气锤、数控全液压模锻锤、电液锤、电液动力头、大型热锻液压机、锻造装出料机、锻造操作机、液压铆接机和金属屑压块机等。公司生产的 C41系列空气锤曾荣获“国家产品质量银质奖”称号，并通过了CE认证，开发研制的数控全液压模锻锤获得国家四项专利，荣获“河南省科技进步奖”。集团公司通过了 ISO9001:2008质量认证，两种产品获国家旨在保护名优产品“原产地标记注册认证”。

集团公司现占地 300余亩，有数控大型设备生产基地、锻锤生产基地、大型锻件生产基地和锻造设备配件生产四大基地。设有省级产品设计研发中心，并设有销售中心、售后服务中心、质量检测管理中心、机加工中心和大型热处理及产品装配中心，能为客户提供“一条龙”式的系统服务。

集团公司遵循“技术创新第一、产品质量第一、产品销量第一、售后服务第一”的经营宗旨，为国内、外客户提供规格全、质量优、价格廉的各种锻造设备产品，远销美国、德国、英国、法国、印度、越南、埃及等60多个国家和地区，深受用户赞誉和好评。

安锻人奉行为锻造行业发展服务、为锻造行业用户服务、追求用户满意为宗旨，为社会提供优质产品和服务。

Anyang Forging Press(Group) Welding Company

Company Profile

Anyang Forging Press (Group) Machinery Industry Co., Ltd (original Anyang Forging Press Equipments Factory) is the biggest forging hammer manufacturer in China. Our company has 60 years history in Producing forging hammer. Our company has been identified as the national high-tech company. We drafted the national standard for Pneumatic forging hammer, CNC fully hydraulic die forging hammer, Electro hydraulic forging hammer. Our company is one of the high-tech and high-growth enterprises in Henan province. We are the Executive director of China Forging Association and the Vice President of Henan Forging Association.

Our main products include C41 series pneumatic forging hammer, C92K series CNC fully hydraulic die forging hammer, Electro hydraulic forging hammer, Electro hydraulic power head, Large hydraulic forging press. Forging manipulator, Forging charger, Hydraulic riveting machine, Hydraulic briquette press for metal scrap etc equipments. Our C41 series pneumatic forging hammer has been awarded the top prize by China Government and the famous brand hammer in Henan Province. C92K series CNC fully hydraulic die forging hammer has been awarded the Reward of Henan Science and Technology Progress and National Patent Award for 4 items. Our company has passed ISO9001:2008 quality certificate and our hammer have passed CE certification. Two products have been given the original certificate to protect the best quality machines.

Our company covers about 60 acres with four branch factories. Our company has the provincial level products design and research center and has sales center, after-sale center, quality control and management center, machining center and large heat treatment and product assembly center, which can provide the complete set of forging equipments.

Our company follows the principles of "technical innovation first, quality first, sales amount first and after-sales service first" and offer all kinds of forging equipments of complete specifications, superior quality and competitive price. Our products have been exported to USA, Germany, UK, France, Australia, India, Vietnam, Pakistan etc 60 countries and regions and gain high reputation all over the world.

Our company follows the principle to service for the forging industry development, for forging customers and pursuit the satisfaction of customer. We will offer the high-quality products and service to contribute our effort for the development of world forging industry.

C41系列空气锤

C41 SERIES PNEUMATIC FORGING HAMMER

用途:

C41系列空气锤主要用于自由锻造、延伸、镦粗、冲孔、热剪、锻焊、弯曲、扭转和胎膜锻造。整体、分体式空气锤在厂内组装试车，整机出厂合格率100%。

Usage:

C41 Series Pneumatic Hammer is mainly used to free forging, drawing, upsetting, punching, hot shearing, forged welding, bending, torsion and swedge forge. One piece forging hammer and two pieces forging hammer can be assembled and trial run before leaving factory. The percent of pass of production (complete machines) leave factory is 100%.
